Career Experience

Consultant / Interim VP Finance – Tatum by Randstad, Los Angeles, CA

2020 – Present

Tatum provides on-demand C-suite executives and senior-level professionals to help companies manage critical initiatives in accounting, finance, technology, compliance and transactions. While consulting as interim VP Finance, key objectives include addressing complex business life cycle challenges and serving as trusted advisor to executive management.

- Financial statement preparation, internal audit, and technical accounting advisement.
- Information system design, strategic integrations, internal controls, and data visualization.
- M&A, private equity, consolidations, business units, purchase accounting, and debt covenants.
- Workflow optimization, best practices, regulatory compliance, and team leadership.

Director, Finance & Operations – Doctor Evidence, LLC, Santa Monica, CA

2015 – 2019

Doctor Evidence is a market leader in AI-enabled medical insights with its SaaS platform that empowers global stakeholders in the healthcare ecosystem to generate actionable data insights. As Director, Finance & Operations, responsibilities encompassed supporting C-Suite strategic initiatives, progressing internal control over financial reporting, and expanding enterprise-wide data analysis practices.

- Improved processes, internal controls, and reporting to help increase EBIT by over 400% (2016 – 2018).
- Led custom ERP system development, centralizing data management, streamlining financial reporting processes, and positioning company for scalable operations.
- Developed resources and trained accounting staff to validate and reconcile month-end close procedures.
- Built vital business and financial models to extract and organize ERP system data used for KPI management, budgeting, forecasts, financial reporting, and supporting company valuation for sell-side M&A activity.
- Produced financial model that delivered interactive ROI analysis, gross margin reconciliation, and proprietary internal-use software capitalization (ASC 350-40).
- Collaborated with business development team to create sales and revenue forecasting model consistent with contract revenue recognition standards (ASC 606).

Corporate Controller – National Link, Inc., Glendora, CA

2013 – 2015

National Link is the largest independent ATM company in the Western United States with presence across the nation, Puerto Rico, and the U.S. Virgin Islands. As the company chief accountant supervising over 300,000 monthly transactions, responsibilities included partnering with the President to execute company vision, full-cycle GAAP accounting procedures, budget development and management, internal control advancement, and investment advisement.

- Led strategic portfolio acquisitions with net present value (NPV) and discounted cash flow (DCF) analyses to help grow net income by 200%.
- Introduced legally-binding internally-generated purchase agreements, growing annual ATM sales by over 20%.
- Launched first customer credit limit policies, protecting sales and cutting average collection time by 40%.
- Programmed Excel resources to reconcile monthly processing records, expedite month-end close procedures, and analyze ATM transaction profitability across all affiliated networks.
- Advanced month-end close process and financial reporting with general ledger modifications and use of data imports.
- Trained accounting staff on self-review procedures to improve data entry practices and accuracy.

Controller – Supply Chain Management, LLC, Fontana, CA

2012 – 2013

Supply Chain Management is a business operations consulting firm specializing in the oil, natural gas, steel, and building materials industries. As Controller, responsibilities included front office supervision, full-cycle GAAP accounting functions, union and multi-state payroll processing, budget development and monitoring, internal control enrichment, internal audit execution, and enhancement of strategic relationships.

- Overhauled the general ledger to improve financial statement presentation and GAAP compliance.
- Administered strict budget adherence and improved external business relationships, boosting current ratio by 125%.
- Automated bank reconciliation process with custom Excel model that merged bank and general ledger data exports.
- Created Excel resource to manage 12,000-gallon analog fuel tank and oil futures, increasing gross margin by 25%.
- Delivered and documented internal control procedures, accelerating month-end close process from 7 to 5 days.
